Dear Carl, 9/30/72

This afterthought: your morgue should disclose interesting information on the Andreas family, Dwayne and others. I have a few clippings not from the Post or NYTimes.

There was an indictment for some kind of stock deal when Morgenthau was United States Attorney in New York City. You may remember that the Nixon administration kind of rushed-pushed him out under circumstances then suggesting favors to other copporations.

There was an earlier business, as I recall here specifically involving Dwayne, having to do with selling agricultrual products to the USSR.

My copies are xeroxes that are not too clear. If I have not given these to Bob and they interest you, especially in the light of the present wheat flap, I'll make the best copies I can for you.
